Walk-in Interview for one Junior Research Fellow (JRF)
Date and Time: 24th November 2014 at 9.00AM

The Indian Institute of Tropical Meteorology is an autonomous research organization fully funded by Ministry of Earth Sciences, New Delhi. It is a premier Institute of national and international repute, devoted to research in various aspects of atmospheric sciences. The Institute has excellent infrastructural facilities such as high performance computers, observational laboratories, modern library, workshop, etc. It has a strong link with various universities and national and international organizations.

The institute has successfully implemented the ambitious project "System of Air Quality Forecasting and Research (**SAFAR**)" for the 2 Metropolitan cities namely Delhi and Pune to predict the air quality for the first time in our country, which is now an operational service. The institute is in the process of expanding the SAFAR activities to Mumbai region and initiated the development of "**SYSTEM OF AIR QUALITY FORECASTING & RESEARCH**" (**SAFAR-MUMBAI**) for the air quality forecasting services for Mumbai city. The scope under the project would include- setting-up the monitoring network of air pollution and weather parameters; development of emission inventory of criteria pollutants, advancement in high resolution weather and atmospheric chemistry transport model for the nested domains and its operation in Super computers and establishment of wireless communication system for public display. Data generated will also be utilized to understand the scientific processes responsible for the variation of these pollutants on different time scales and their impact on health and agriculture over India. For the above project, applications are invited from bright and motivated young candidates for the temporary post of Junior Research Fellow (1 numbers) which should lead to Ph.D. degree. The place of work will be IITM, Pune. All selected candidates need to get involved in filed activities. Details are as follows:
