

Ministry of Earth Sciences, Government of India
INDIAN INSTITUTE OF TROPICAL METEOROLOGY (IITM),
Dr. HomiBhabha Road, Pashan, Pune-411008
Advertisement No. PER/01/2021

RECRUITMENT OF VARIOUS PROJECT POSTS PURELY ON SHORT TERM
CONTRACT BASIS

The Indian Institute of Tropical Meteorology (IITM) is an autonomous research organization fully funded by Ministry of Earth Sciences, New Delhi. It is a premier Institute of national and international repute, devoted to research in various aspects of atmospheric sciences with emphasis on tropical meteorology, particularly on the Climate Change and Indian Monsoon.

It is proposed to recruit the following posts as detailed below:

Sr. No	Name of Post	Pay	No of posts \$	Age Limit In years
1.	Project Scientist -III	₹ 78,000/- + HRA	17	45
2.	Project Scientist –II	₹ 67,000/- + HRA	37	40
3.	Project Scientist –II [Computer Appli support sc.]	₹ 67,000/- + HRA	01	40
4.	Project Manager	₹ 1,25,000/- consolidated #	01	65
5.	Program Manager	₹ 1,25,000/- consolidated #	01	65
6.	Project Consultant	₹ 78,000/- + HRA#	01	65
7.	Executive Head	₹ 78,000/- + HRA#	01	65
8.	Project Scientist- I [OBC-8, SC-5,ST-2 &EWS-3]	₹ 56,000/- + HRA	33	35
9.	Senior Project Associate [OBC-01]	₹ 42,000/- + HRA	05	40
10.	Training Coordinator	₹ 42,000/- + HRA	01	40
11.	Project Associate-I [SC-1, OBC-03 & EWS-01]	₹ 31,000/- + HRA * ₹ 25,000/- + HRA	13	35
12.	Project Associate-II [SC-1, OBC-02 & EWS-01]	₹ 35,000/- + HRA* ₹ 28,000/- + HRA	10	35
13.	Technical Assistant [SC-1 & OBC-02]	₹ 20,000/- + HRA	08	50
14.	Project Assistant [SC-1 & OBC-02]	₹ 20,000/-+ HRA	09	50
15.	Field worker	₹ 18,000/-+ HRA	02	50
16.	Scientific Administrative Asst.	₹ 18,000/-+ HRA	03	50
17.	UDC (01 for SC and 02 for OBC)	₹ 25,500/-+ HRA	09	28
18.	Section Officer	₹ 44,900/-+HRA	03	35
19.	Project Associate-I [C-DAC sponsored Project]	₹ 31,000/- + HRA	01	35
Total Posts			156	

**[Emoluments for Candidates having NET/CSIR-UGG / GATE or having passed national level examination conducted by Central Govt. Dept. of agencies and Institutions]*

Emoluments in r/o Project Manager, Project Consultant & Executive Head in case of retired employee being appointed will be fixed as per the Govt. Of India instructions.

\$ The number of vacancies mentioned in the advertisement may vary depending upon the requirements of the project.

- The appointment is purely on temporary and contractual basis initially for a period of one year. Extension of tenure is co-terminous with the project period and subject to the satisfactory performance.
- **Aspiring candidates may submit their applications along with their CV online only: <http://www.tropment.res.in/Careers>**
- **Hard copy of the applications will not be accepted.**
- **Other relevant details about the posts are available under www.tropmet.res.in/Careers Facility for submitting online applications for the posts from Sr. No.1 -7 will commence on 6th July, 2021, 1130 hrs & for the posts from Sr. No.8-19 will commence from 12th July, 2021, 1700 hrs.**

INSTRUCTIONS

1. The last date of submission of online application is **1st August, 2021** The last date is the cut of date for all purposes including age/qualification/experience etc.
2. Only Indian Nationals are eligible to apply.
3. Mere possession of required qualification will not entitle the candidates to be selected for interview. If the number of applications received in response to advertisement is large, it will not be convenient or possible for the selection Board to interview or conduct written test for all those candidates. The Institute may short list the candidates to a reasonable limit based on the essential and desirable qualifications / record of academic performance / relevant experience for the post or any other benchmarks as decided by a committee constituted to screen the applications.
4. No correspondence will be entertained with candidates who are not called for Interview/written examination.
5. Upper age limit is relaxed for SC/ST/ OBC/Physically Handicapped persons/Ex-servicemen as per Government of India norms.
6. Experience for the post of UDC & Section Officer shall mean the experience in the relevant field acquired from Government/ Semi Govt. / PSU/ Autonomous/ Research/ Reputed Organization after obtaining the minimum educational qualification asked for in the said category. Experience claim should be supported by valid documentation.
7. The selection for the posts of UDC shall be on the basis of performance of the screened in candidates in the written test. & skill test The scheme of the written test will be uploaded in the website during August 2021.

8. For other posts selection will be on the basis of performance of the screened in candidates, in the online interview.
9. Candidates must produce all original documents as proof of details furnished in the application and photocopy of each, at the time of joining. Any discrepancies found in the certificate will attract the disqualification of applications. Non production of the original certificates at the time joining will also make the candidate disqualified.
10. Selected candidate may have to join the post immediately, on being found fit by Medical Authority.
11. Essential qualification, experience and age limit can be relaxed at the discretion of the appointing authority in exceptional cases.
12. Doctorate Degree will count as 3 years of experience (in case the doctorate degree is not mentioned as the essential qualification).
13. No TA/DA will be paid for attending the interview/written examination. For SC/ST candidates admissible TA/DA shall be considered as per Government of India orders.
14. CGPA grading is to be converted in percentage.
15. Online application submitted without scanned copies of the certificates will be rejected.
16. Applicants working in Government/ Semi-Government/ Public Sector Undertakings/ Autonomous bodies should apply through proper channel. If application is not routed through proper channel, then the applicant must produce the requisite 'No Objection Certificate' from their employer at the time of interview.
17. Director, IITM reserves the right to fill-up or not to fill up the post advertised without assigning any reasons thereof.
18. Canvassing in any form and /or bringing any influence, political or otherwise will be treated as disqualification of candidature. No interm correspondence/inquiry will be entertained.

Post Code	:	CCCR2021-001
Name of the post	:	Project Scientist - III (Climate Data Management and Dissemination)
Number of post	:	01 No.
Essential Qualification	:	<ul style="list-style-type: none"> • M. Sc. Tech / M. Tech in Computer Science / Computer Applications / Mathematics / Applied Mathematics or equivalent subject from a recognized University or equivalent. • Seven years' experience in handling climate data management including hardware and software.
Desirable Qualification	:	<ul style="list-style-type: none"> • Expertise in web application development, climate applications and its integration, development of interactive applications for archival and dissemination of climate data, climate data management, dissemination, and visualization. • Expertise in modern advanced analytics tools and programming, such as Java / J2EE, Python, Shell Scripting, Database, and analysis & visualization tools such as ArcGIS, MATLAB, CDO, Grads, Ferret, R, etc. • Expertise in climate model data processing and performing quality control checks. • Handling of large volume of data and conversant with data format like NetCDF, HDF, GRIB, GrADS etc. • Experience with continuous integration / continuous delivery (CI / CD) tools (Jenkins, Git, Docker, Kubernetes) • Regular updates of website contents and participation in new web project.
Job Responsibilities	:	<ul style="list-style-type: none"> • Working knowledge of hardware and software for management of High/Low end servers, database, security and integration tools, interactive software for archival of climate data, climate database management and dissemination using ESGF. • Administration, maintenance, installations, security and support for climate tools • Maintain existing software systems by identifying and correcting software bugs • Working with High Performance Computing Systems (HPCS) • Expertise in Linux and Windows Administration • Review and analyze the requirements and provide technical feasibility and estimates

Post Code	:	CCCR2021-002
Name of the post	:	Project Scientist - III (Climate change hydrological applications and modelling)
Number of post	:	01 No.
Essential Qualification	:	<ul style="list-style-type: none"> • Doctoral Degree in Atmospheric Sciences/Meteorology/Oceanography (or) in Physics/Geophysics/Mathematics with meteorology as one of the topics (or) • Master's degree in Science in Atmospheric Sciences/Meteorology/Oceanography (or) in Physics/Geophysics/Mathematics with meteorology as one of the subjects with at least 60% marks or equivalent

		(or) Master's degree in Engineering or Technology from a recognized University.
Desirable Qualification	:	<ul style="list-style-type: none"> • Seven years of relevant research experience in climate and hydrological modelling and data processing. • Working knowledge of Statistical preprocessing of climate model outputs for impact assessments, experience in using hydrological models, and designing user oriented applications. • Working knowledge in using scientific programming languages such as MATLAB, Python, FORTRAN, C and analysis tools such as GIS, R, CDO, Grads, NCL etc. • Work experience with various operating systems such as Windows, Unix/Linux etc.
Job Responsibilities	:	<ul style="list-style-type: none"> • To prepare reliable climate model outputs for impact studies, set up hydrological model experiments for hydrometeorological applications, and to prepare value added products focusing on user needs.

Post Code	:	CCCR2021-003
Name of the post	:	Project Scientist – III (Development of Future climate Change Scenario and outreach of climate information)
Number of post	:	01 No.
Essential Qualification	:	<ul style="list-style-type: none"> • Doctoral Degree in Atmospheric Sciences/Meteorology/Oceanography (or) in Physics/Geophysics/Mathematics with meteorology as one of the topics <p>(or)</p> <ul style="list-style-type: none"> • Master's degree in Science in Atmospheric Sciences/Meteorology/Oceanography (or) in Physics/Geophysics/Mathematics with meteorology as one of the subjects with at least 60% marks or equivalent <p>(or)</p> <ul style="list-style-type: none"> • Master's degree in Engineering or Technology from a recognized University. • Seven years' research experience in Climate Dynamics and Variability, Monsoons, Precipitation Extremes, Hydrological Processes, Teleconnections, Paleoclimatic variations, etc using Observations, Reanalysis and Satellite data, Paleoclimatic observations and Climate model outputs.
Desirable Qualification	:	<ul style="list-style-type: none"> • Working knowledge in HPC and experience with operating systems UNIX/LINUX and Windows environment • Conversant in high-level programming languages FORTRAN and C. • Good experience in Statistical Analysis, Data analysis tools viz., MATLAB, GrADS, IDL, NCL, Ferret, R software, GIS tools. • Familiarity with governing dynamical processes associated with weather and climate. • Familiarity with weather and climate modelling/work experience in numerical modelling of ocean/atmosphere general circulation features • Ability to work with large datasets and analyze climate model outputs • Ability to design and conduct coupled general circulation model experiments on supercomputing platforms.

		<ul style="list-style-type: none"> • Familiarity with regional climate downscaling and regional climate information • Familiarity in conducting training courses in climate science, communicating regional climate information.
Job Responsibilities	:	The selected candidate will involve in configuring, executing and analyzing climate model simulations in addition to observational analysis and development of analytical models to investigate climate and monsoon research problems. The selected candidate should have the ability towards development and maintenance of databases, publish the scientific merits of the work in peer-reviewed journals, conduct training, communication and outreach activities related to climate studies.

Post Code	:	CCCR2021-004
Name of the post	:	Project Scientist - II (Hydrometeorology Observations, Soil-Moisture Measurements and Applications)
Number of post	:	01 No.
Essential Qualification	:	<ul style="list-style-type: none"> • Master's Degree in Engineering or Technology from a recognized university in Electronics / Instrumentation/ Electrical/Mechanical / Civil/ Energy/ or equivalent subject. • Three years' field experience in working with Hydro-meteorological instruments/sensors.
Desirable Qualification	:	<ul style="list-style-type: none"> • Master's Degree in Engineering with at least 60% marks or equivalent in qualifying degree level and Bachelor's Degree in Engineering or Technology from a recognized University in Electronics/ Instrumentation/ Electrical/ Civil /Energy/ Mechanical Engineering or equivalent subject with at least 60% marks or equivalent at the qualifying degree level. • R&D for up-gradation of Hydro-meteorological observing network and to maintain the observational network. • Expertise in on-field calibration, validation and theoretical analysis for COSMOS probs. • Expertise in installation, operation & maintenance of Technical and scientific Meteorological instruments on observational towers at multiple vertical levels. • 24X7 Energy management, network and communication of real-time observed data at rural/remote areas through web based server. • The calibration and validation of meteorological data set to implement quality control checks for observational data sets and its management. • Conduct scientific research through analysis of hydro-meteorological observations and model outputs of land surface hydrological processes. • Experience in data processing, quality control checks and developing analysis tools • Working knowledge in using scientific programming languages such as FORTRAN, C, good expertise in handling analysis tools such as CDO, Grads, NCL, Ferret, R, GIS etc. • Good knowledge of Electrical/Electronics and scientific research experience.
Job Responsibilities	:	<ul style="list-style-type: none"> • To upgrade test and calibration facility for Hydro-meteorological instruments • Expertise in on-field calibration, validation and theoretical

	<p>processes for COSMOS sensors</p> <ul style="list-style-type: none"> • Development of soil observation sensors network at rural/remote areas for real time validation. • On-filed smart optimization of power supply to maintain site 24x7 in the rural/remote areas. • Conduct scientific research through analysis of Hydro-meteorological observations and model outputs relevant to land surface hydrological processes.

Post Code	: CCCR2021-005
Name of the post	: Project Scientist – II (High resolution climate modelling over the Third Pole region in the CORDEX FPS framework)
Number of post	: 01 No.
Essential Qualification	: <ul style="list-style-type: none"> • Doctoral Degree in Atmospheric Sciences/Meteorology/Oceanography (or) in Physics/Geophysics/Mathematics with meteorology as one of the topic (or) Master’s degree in Science Atmospheric Sciences/Meteorology/Oceanography (or) in Physics/Geophysics/Mathematics with meteorology as one of the subject with at least 60% marks (or) equivalent (or) Master’s degree Engineering or Technology from a recognized Univeristy or equivalent. • Three years of experience in regional climate modelling
Desirable Qualification	: <ul style="list-style-type: none"> • Working knowledge of handling dynamical downscaling experimental set ups using regional climate models that address specific kilometer scale climate modeling problems. • Working knowledge in using scientific programming languages such as Fortran, C, Python, shell scripting, and analysis software tools such as CDO, NCO, Grads, NCL, , R, Python workflows etc. • Experience in HPC use and parallel computing (multi-threaded applications). • Knowledge of version control systems (git, svn, cvs...). • Knowledge of handling large datasets, and a minimum knowledge of NetCDF data formats. • Ability to prepare and submit manuscripts to peer-review journals.
Job Responsibilities	: <ul style="list-style-type: none"> •The position offered aims at performing and analyzing simulations with regional climate models at different resolutions to assess the relative merits of increasing resolution to better understand the regional characteristics of water cycle and its variabilities and changes over the Third Pole (TP) and adjoining regions. The work will be part of the high resolution climate modelling in the international CORDEX FPS project CPTP http://rcg.gvc.gu.se/cordex_fps_cptp/. CPTP develops high resolution convection permitting simulations (2-4km) using a set

	of coordinated high resolution regional climate downscaling experiments carried out by international participants with a focus on mesoscale convective systems and associated precipitation over the TP region.
