Exciting News! We now have a QR Code for the IITM Website!

We are happy to launch the QR code for the IITM website.The QR code will direct you straight to the IITM website, empowering you to swiftly access a wealth of knowledge, latest research highlights, events, and resources at IITM. Just take a photo of the QR code and Scan it and redefine your IITM experience. Seizing the power of connectivity and innovation, we usher in a new era of seamless access to the IITM website!

What's a QR code? A QR code is a symbol that, when scanned, holds information such as URLs, text, or other data.

Why use a QR code? QR codes are user-friendly and offer a quick way to access our website.

How to use our QR code? Simply take a picture of the QR code from the website and then save it. Next just scan the QR code and you will be redirected to our website, where you can explore our latest content and features.

We hope this new feature will make your browsing experience with us even more efficient.
